What is American Sign Language (ASL)?

American Sign Language (ASL) is the native language of Deaf individuals in North America. The Bob Rumball Associations for the Deaf offers courses in ASL, as a second language. Our courses are non-accredited, general interest classes. However, to progress among the levels, students must receive a satisfactory standing.

Curriculum The Bob Rumball Associations for the Deaf uses the *Signing Naturally* curriculum. Stressing a functional notional approach, the *Signing Naturally* curriculum ensures that the language you learn is the language used in everyday conversation. By learning language functions in interactive contexts, you also develop conversational skills in confirming and correcting information, expressing degrees of uncertainty and for clarification and repetition. Our classes operate in an ASL immersion style no-voice environment. This means that you will be asked to keep your voice turned off during all classes.

Minimum Age Students from grade eight and up can register for our classes.
