

## City TV Visit's ARP

One of our residents, Jackie Johnston was lucky enough to have one of her long time dreams come true this spring. Jackie has been fascinated with video cameras for many years and loves meeting other people who work with them. She is a big fan of Toronto's City TV and is so excited whenever she sees them at parades and special events.

Over the years, she has sent numerous letters and emails to City TV in hopes that they would one day come to BRCD so that she could meet some of the reporters and see how they work with their cameras “up close and personal.”

On March 31, 2005 we received a call from Audra Brown, one of City TV's Videographers. She had gotten one of Jackie's emails and she wanted to do a story on Jackie and hear more about her passion for video cameras. Jackie was ecstatic!!

**Jackie's dream came true on April 13, 2005 when Audra Brown arrived to interview her at BRCD.** She spent some time getting to know her and visiting with the other residents and that interview was aired on City TV at 11:00pm that night. Jackie was one happy lady, and it's a day that many of the residents will remember for some time to come.
