

SENSORY EXPLORATION ARTS PROGRAM

Deaf Blind Ontario Services and Bob Rumball Associations for the Deaf

Design and Layout by: Corene Jonat

March April May June July August

The arts motivate in a way that no other force can. It is only through making a mark that no one else could make, that we express the individual creative spark in our own humanity, giving all individuals every opportunity to discover how wonderfully unique and special it is that they have known life and shared their feelings, responses and perception of living it.

Bernie Warren

Explore Express Enjoy

creative expression through the arts

SEA program Coordinators: Corene Jonat , Alyssa Light

Explore: Experience exploration of life through the senses of smell, taste, touch, sound (vibrations) sight (light/dark intensities) in context to the theme of the week providing individual emotional response, connectedness to living life, sense of self and well being.

Express: Express the emotional response to the experience being had in the present moment in an art medium of (collage, painting, sculpture and printmaking) to validate ones humanity and wellbeing

Enjoy: Creative self expression through the arts allows for further communication to others about how each person experienced the world in that moment of time. Validating their unique personality, purpose and enjoyment of living to their fullest capabilities.
